## 4 Broadband Challenges for NZ Businesses

#### DATA CONSUMPTION

Businesses are faced with both the growing need for data to operate their business, on top of providing unlimited access to data hungry teams.

#### RELIANCE ON CONNECTIVITY

Broadband is now sitting as mission critical for most businesses, with this comes the risk of performance and stability.

#### COMPLEXITY OF NETWORKS

The overhead of managing multiple connection types across different sites and business units is becoming increasingly complex.

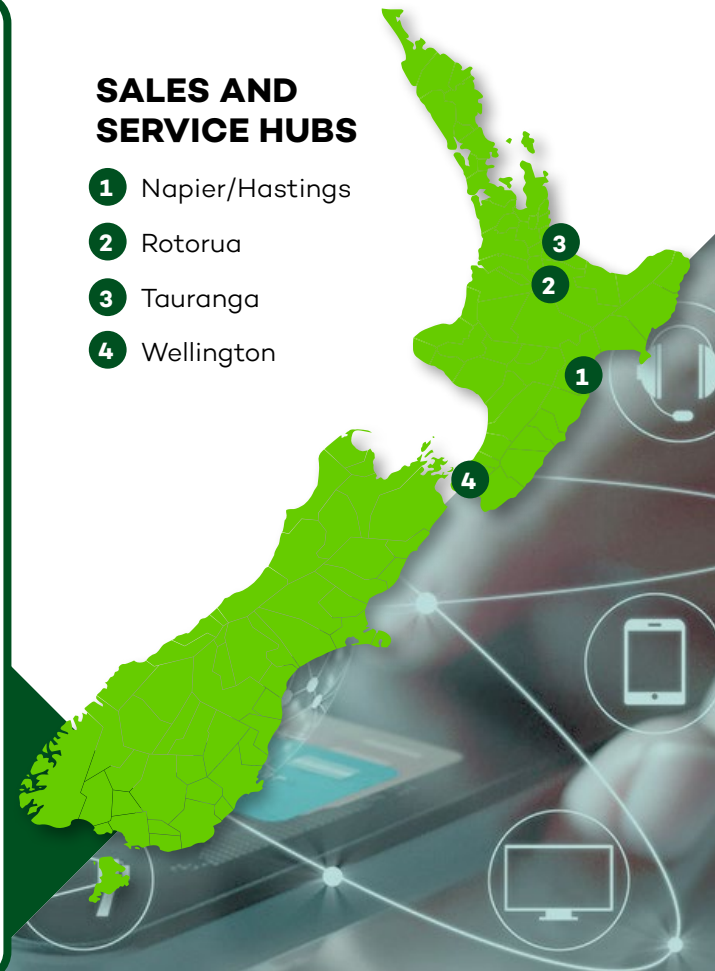

#### FAST SUPPORT

Due to increased reliance on broadband, businesses need instant support from their provider when in times of need.
