

NOW VOICE AND CALLING COMMUNICATION ESSENTIALS

Communication should be straight forward. Kiwi business still rely on the basics of communication. We've got the expertise to give you voice, how you want it, where you need it.

COMMUNICATION SPECIALISTS

we listen, we deliver

REDUCE COSTS

consolidate & save

BUSINESS CONTINUITY

responsive support & field services

TOLLSHIELD

protecting your business, and your pocket

Choose an Expert who 'gets' business

TALK YOUR LANGUAGE

ISDN, Stepper, BRA, PRA, ATA, Analogue, SIP, Faxability... have we lost you yet? We understand traditional telco's talk another language. Whether you're looking for a better deal, or simply don't know how to compare, our industry experts help analyse your existing services and match a solution to your needs.

SMOOTH TRANSITION

Where applicable, we work closely with your PABX supplier helping you leverage upgrade savings and ensuring a smooth transition to minimise any impact on your vital operations.

SECURITY & ANALYSIS

With any technology comes risk; there's always someone trying to exploit vulnerability. Our calling network analyses any rapid changes to your international calling and blocks suspicious/fraudulent activity, giving you peace of mind, and preventing unexpected bills.

END TO END SUPPORT

In the event something does go wrong, our network of field technicians ensures an expert will be at your door to diagnose & rectify on-premise problems.

What Voice & Calling benefits do you require?

1. We require the replication of existing services.
2. We need to remove a legacy PBX that has limitations.
3. We need functionality that scales with our business.
4. We need to lower our costs.
5. We need to add resiliency and Business Continuity.
6. Responsive support from our voice provider.
7. We need to move from copper services and take advantage of newer up-to-date services.
