

NOW™ Rollover Data

Terms and Conditions

May 2014

These terms and conditions cover Rollover Data on all applicable NOW™ broadband plans. These apply in conjunction with any other relevant terms and conditions for your services which can be found on the NOW™ website (<http://www.nownz.co.nz/terms.html>).

1. Rollover Data is calculated at the end of each month, allowing you to carry over any unused data into subsequent months.
2. Rollover Data only applies if you have not used all of your existing allowance (including previously rolled data). Deficits are not carried over.
3. Provided your plan is unchanged, data can compound to a total of 1TiB.
4. If you change your plan, your Rollover Data will be reset to 0 at the time the plan is changed.
