

STEP 4: CONNECTING TO YOUR WI-FI NETWORK

- Ensure Wi-Fi is enabled on your device
- Go to **Wi-Fi settings** on your device and select the network name you set up in step 3.
- Enter the password you created.

HOW TO SET UP YOUR WI-FI UNIT.

Use this guide to set up one Deco Unit.
If you have two or more units, the app will help you do the rest.

IMPORTANT: YOU WILL NEED

- 1 **NOW ACCOUNT NUMBER**
(find this in your welcome email or latest bill)
- 2 **MOBILE DATA, OR A WI-FI CONNECTION**
(to download and log into the Deco app)

Got stuck or need a hand?
Call us: 0800 438 669

STEP 1: CONNECTING TO THE 'ONT'

(The ONT is the little fibre box that's already on your wall. It might look like this)

- Plug the provided Deco power adaptor into the wall and into the bottom of the first Deco unit. Power on.
- Plug one end of the provided ethernet cable into either the **GE1** or **LAN1** port on your ONT. Plug the other end of the ethernet cable into either of the ports on the back of the Deco unit.
- At first the light on the top of the Deco unit will be yellow. It will change to a pulsing blue light when its ready for set-up.
Note: If the light is not pulsing blue, press the **RESET** button at the bottom of the unit.

STEP 2: SETTING UP THE DECO APP

- Download the 'TP-Link Deco' app onto your smartphone by scanning the QR code, or download it from **Google Play** or **Apple Store**.
- Open the app and create a TP Link account using your preferred email address and password.
- Activate the account and log in.

STEP 3: CONNECTING YOUR DECO

(This section applies to the Deco app)

- Select your Deco unit model: **M4**
- Select: **I dont have a modem**
- Continue to follow the on-screen prompts.
- Select the connection type and change this from:

DYNAMIC IP → **PPPoE**

- Follow the prompts to connect your Deco unit to your broadband connection.

Turn IPTV/VLAN **on**, and select 'NZ UFB'.

Username:
The first 10 digits of your **Now account number**, followed by @nownz.co.nz. Like this:

3133XXXXXX@nownz.co.nz

Password:
anything you like.

Network:

- Follow the prompts to create a **name** and **password** for your new Wi-Fi network. **This is the name you will see when connecting your devices to your network in Step 4.**
