

## Archer C7 (V4) Fibre configuration

### Log into the Gateway:

1. Connect your device to the router (preferably hardwired)
2. Open a Web Browser (Chrome, FireFox, Safari, Internet Explorer etc)
3. In the web browsers address bar type: [tplinkwifi.net](http://tplinkwifi.net)
4. The following screen appears and you will need to set an administrator password for managing your router **\*\*First time login only, you may have set this already\*\*** - Click Let's Get Started when you're done. **\*If the default password does not work and you cannot remember the changed password, you may need to factory reset the router by hushing and holding the inset reset button for 10 seconds.**

Please create an administrator password to manage your Wireless Router Router 03.

Let's Get Started

### How to add correct settings for the NOW network:

Now that you've got access to the settings, select the Quick setup tab from the top of the page and proceed through the options.

1. First up, Time Zone, easy enough!
2. Next is Internet Connection Type – Please select **PPPoE** and then **Next**.
3. You will be asked for PPPoE username and password on this page
4. For the **Username**: Use 'NOWAccountID@nownz.co.nz' (e.g. [31337000000@nownz.co.nz](mailto:31337000000@nownz.co.nz))
5. For the **Password**: Use **pass123** (this can actually be anything, as long as the password isn't left blank).

Please enter your PPPoE username and password.
